Dimensions

Features

- Revolutionary 3 motor design creates stronger and more uniform suction. Unlike other conventional slim hoods where suction is concentrated in the middle, this feature helps prevent air escapement from the sides. Crucial for Asian cooking as most wok burners are on the right or left side.
- Air flow rate up to 825m³/h
- Intuitive 3-speed mechanical control switches
- 2 LED down lights
- Washable 3-ply aluminum filters for effective removal of cooking grease
- 3 charcoal cassette filters for effective removal of cooking odors
- Sleek and elegant slim line design
- Available in Stainless steel with black front panel or Full black (**TH979-3M-BK**)
